LETTER
FROM THE
SECRETARY AT WAR,
ACCOMPANYING A
REPORT
AND
SUNDRY STATEMENTS,
SUPPLEMENTARY TO HIS REPORT

RECEIVED THE 16TH INSTANT,

In Pursuance of two Resolutions of this House
of the 28th of March last.

23d April, 1798.

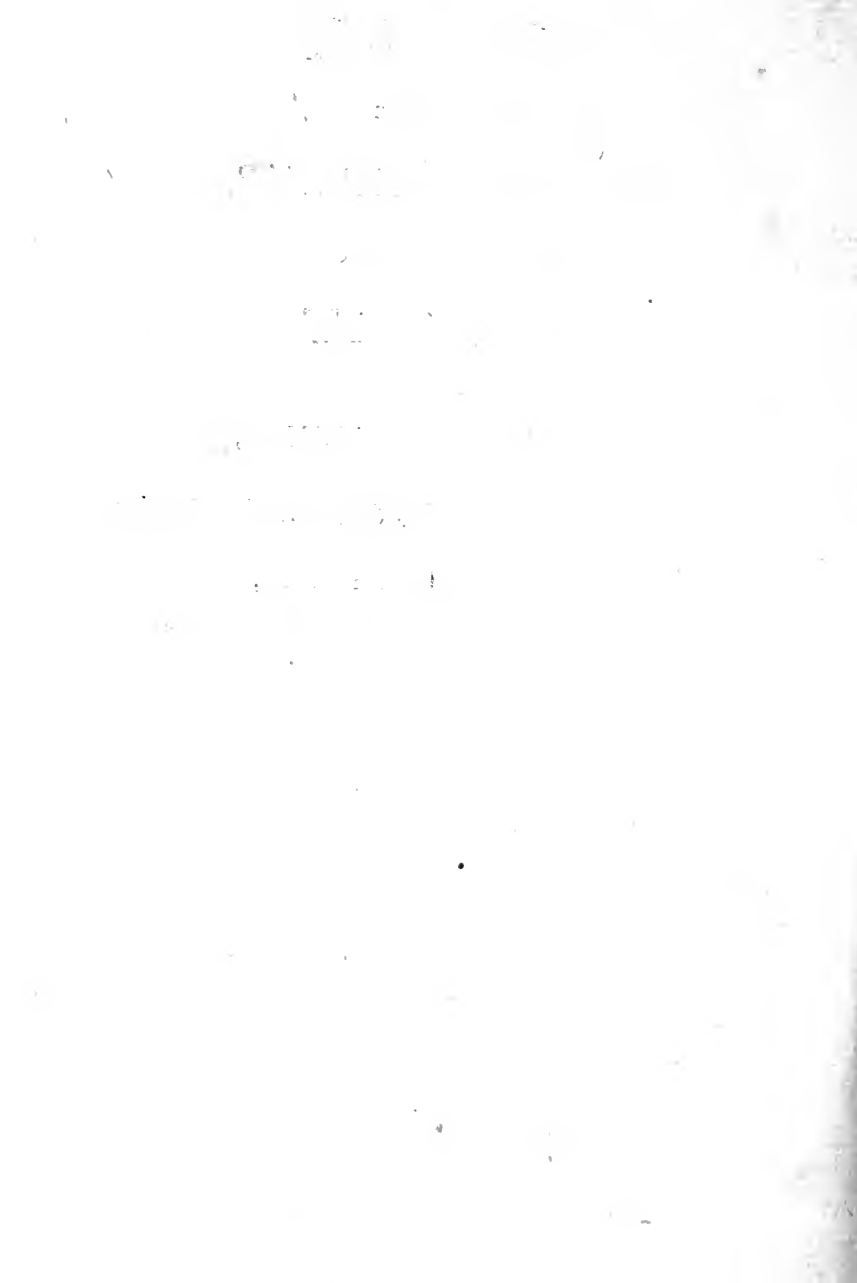

Referred to the Committee of the whole House, to whom is committed the Bill making Appropriations for the Military Establishment for the Year one Thousand seven Hundred and ninety-eight, and for other Purposes.

PRINTED BY ORDER OF THE HOUSE OF REPRESENTATIVES,

Philadelphia:

PRINTED BY JOSEPH GALES,

No. 23, South Third Street.

War Department,
18th April, 1798.

SIR,

I HAVE the honor to submit
to the House of Representatives, a Report, supple-
mentary to the Report submitted on the 13th
instant.

And am,

SIR,

With great Respect,

Your obedient, humble Servant,

JAMES M'HENRY.

The SPEAKER of the
House of Representatives.
of the United States.

REPORT.

War Department, 18th April, 1798.

THE Secretary for the Department of War, has the honor to report the annexed statements, supplementary to his report of the 13th instant, and in pursuance of a resolution of the House of Representatives of the United States, bearing date the 28th of March, 1798, requiring “ An estimate in detail
“ of the probable application of the sum to be ap-
“ propriated for the Quarter-Master Department
“ for the present year.”

No. 1. A letter from the Quarter-Master-General, dated Pittsburgh, the 9th of April instant.

No. 2. An estimate by the Quarter-Master, for expenditures on the North-Western frontier, Ohio and Mississippi, amounting to 207,200 dollars, exclusive of 28,000 dollars, for the pay and subsistence of the crews of four galleys, destined to the protection of our posts, and navigation in the rivers Ohio and Mississippi. It is doubtful, whether the state of things will admit of the major part of the crews for these galleys being drawn from the line of the army, or require that men should be expressly engaged for the service. It will be expedient therefore to cover their pay and subsistence by an adequate appropriation.

In a letter dated the 9th instant, Brigadier-General Wilkinson observes, “ I have examined and ap-

“ proved the estimate of the Quarter-Master-General; the amount is considerable, yet it will be found in the result, barely sufficient to embrace the several subjects it comprehends.”

No. 3. A detailed view of the articles wanted for the troops and garrisons on the frontiers of Georgia, transportation of these and Indian annuities included, amounting to 29,400 dollars.

No. 4. A detailed view of the articles wanted for the troops and garrisons on the frontiers of the State of Tennessee, transportation of these and Indian annuities included, amounting to 29,400 dollars.

No. 5. An estimate of the cost of transportation of ordnance, military and Quarter-Master stores, medicines, clothing, &c. from Philadelphia or the different magazines, to Pittsburgh and ports on the sea-board; and of arms, &c. made or repaired, from the places where made or repaired, to this city, or other places of deposit.

The first charge in the estimate No. 5, is for the transportation, from Philadelphia to Pittsburgh, of ordnance and articles called for by the commanding General, to put in a proper state of defence, the posts on the North Western frontier, Ohio and Mississippi; the transportation of these from Pittsburgh to their places of destination, not being included in the estimate No. 2.

The second charge embraces the usual transportation of clothing and supplies for the army and posts, and the annuities and presents for the Indians, from Philadelphia to Pittsburgh.

The third charge, the transportation of supplies from Philadelphia to the posts and garrisons on the sea-coast, and several recruiting places of rendezvous.

The fourth, the transportation of arms, clothing, &c. from the places where fabricated to the stores

and magazines provided for them, the whole amounting to 63,762 dollars.

These several estimates exhibit the probable application of the monies, which will be required for the Quarter-Master Department for the present year, amounting to 357,762 dollars.

It is proper to observe respecting these estimates, that although there has been as much detail attempted, and attention bestowed in forming them, as could be given to the subject, they may nevertheless, from unavoidable omissions, and being predicated on a pacific state of things, and the present establishment only, fall short of representing the actual expenditures for which a provision may be necessary.

All which is respectfully submitted.

JAMES M'HENRY.

No. I.

Pittsburgh, 9th April, 1798.

SIR,

Inclosed I have the honour to transmit the estimate required by you. It has been formed under the direction of General Wilkinson, and approved of by him.

I have left a blank for the sum to be filled for the pay and subsistence of the crew of the galleys, by the direction of General Wilkinson, that it may be inserted by you. General Wilkinson alledges, that it will require sixty men to work each galley; if these are to be paid by the Quarter-Master Department, it will require a large sum. The least wages that can be expected to be given to men engaged expressly for this service, would be from ten to twelve dollars per month. At this rate the pay for two hundred and forty men for a year, would be 28,800 dollars; but should fewer be employed, and part of them troops, it would still lessen the sum, which is to be regulated by you.

Am, SIR,

With great respect,
Your most obedient servant,

JNO. WILKINS, Jun.
Quarter-Master-General.

The Honorable

JAMES M'HENRY,
Secretary at War.

No. II.

An Estimate of the probable Expenditures in
the Quarter-Master Department for the Year
1798.

Deputy, Assistants and Clerks in the Quarter-	
Master Department	4,500
